MORLOCK – TAMPONS PRINTING PADS

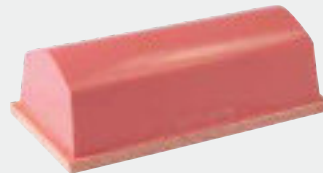

1

3

4

5

6

Benötigte Angaben zu Ihrer Bestellung:

1. Tamponform und -größe

Die unterschiedlichen Grundformen der Tampons sind in Gruppen unterteilt (z. B. 1 für runde Formen, 3 für quadratische Formen etc.). Die gängigen Formen sind alle abgebildet. Jeder Tampon hat eine Nummer. Suchen Sie einfach Ihren Tampon heraus, beachten Sie dabei bitte auch immer die Tamponhöhe (maschinenabhängig).

2. Tamponhärte

Sie richtet sich nach dem zu bedruckenden Produkt. Die Härte wird mit der Normbezeichnung Shore A angegeben. Wir liefern alle Härtegrade von 0 bis 24 Shore, Tamponwalzen und Tamponsegmente liefern wir von 30 bis 50 Shore. Wenn Sie andere Härten benötigen oder nicht sicher sind, welche Tamponhärte Sie verwenden sollen, beraten wir Sie gerne.

3. Tamponmaterialien

MORLOCK bietet Ihnen 2 Materialien an:

0 = roter Tampon

für schnelle Druckfolge, optimal im Mehrfarbendruck (Nass-in-Nass), hohe Standzeit bei mechanischer Beanspruchung; je nach Produktgut.

2 = saphirfarbener Tampon

Das herausragende Merkmal dieser Tamponserie sind die hervorragenden antistatischen Eigenschaften: keine Aufladung des Druckguts, der Tampon zieht keinen Schmutz mehr an und Farbspritzer sind praktisch ausgeschlossen.

4. Sonderanfertigungen

Haben Sie spezielle Anforderungen? Selbstverständlich stellen wir auch Sondertampons produktspezifisch für Sie her. Hierbei beraten wir Sie gerne.

Standardmäßig liefern wir unsere Tampons mit Holzträgerplatten. Auf Wunsch erhalten Sie gerne auch Aluminiumplatten gegen Aufpreis.

Da das Angebot von MORLOCK ständig den Kundenanforderungen angepasst und aktualisiert wird, können nicht alle Tampons in diesem Katalog aufgeführt werden. Informationen zu neuen Tampons erhalten Sie auf unserer Homepage oder über unsere Hotline.

Vorteile der Morlock Drucktampons:

Verarbeitung von ausschließlich besten Silikonqualitäten

Alle Shore Härten verfügbar: 0, 2, 4, ... 24 (Qualität 0, rot)

0, 2, 4, ... 24 (Qualität 2, saphirfarben)

Um optimale Druckergebnisse zu erzielen sind die Härten in Zweierschritten abgestuft

Kurze Lieferzeiten bei allen Standardtampons

Schneller Wechsel der Drucktampons durch einfache Gewindebefestigung

hervorragende antistatische Eigenschaften bei Tampon Orange

Reproduzierbare Qualität und Härtegrade durch computergesteuerte Dosieranlage

Hohe Formbeständigkeit durch hochwertige Grundplatten

Wir fertigen alle Tamponformen nach Bedarf an, ebenso Segmentwalzen und

Tamponsegmente

What you need to bear in mind:

1. Shape and size of pad

In this brochure each pad shape has been allocated to a pad number category (e.g. 1 for Round pads, 3 for square pads). All usual sizes are illustrated. All you do is choose the pad you require and take note of the pad number. When making your choice please take into account the height of the pad (depending on your machine).

2. Pad hardness

The pad hardness is the relation to the product and is given in Shore A. We can provide all Grades, starting with 0 Shore right up to 24 Shore. Pad rollers and pad segments are Available from 30 Shore up to 50 Shore. Further grades can be made to your requirements.

3. Pad material

Two different types are available:

0 = the red pad

for quick print sequences , perfect multi colour print (wet-in-wet), high mechanical resistance relating to the product type

2 = the sapphire colored pad

The distinguished characteristics of this pad serie are the excellent anti-static properties: the printing material does not become charged, the pad does not attract any dirt and ink splashes are practically excluded.

4. Particular requirements

This is for instance the make-up of the base onto which the pad is mounted.

Usually this base is made of wood.

Upon request and for an extra charge it is possible to obtain aluminium bases.

The MORLOCK pad range is constantly improved and updated to meet the latest technical requirements. Should you require a pad or pad roller not listed in this brochure, it will be made to your specifications.

Advantages of Morlock Printing pads:

Only first grade silicone is processed

All Shore hardness available: 0, 2, 4, ... 24 (0 = red pad)

0, 2, 4, ... 24 (2 = sapphire colored pad)

In order to obtain best print results, the hardness has been graduated into double degrees

Standard pads are available almost immediately

Pads can be exchanged rapidly due to simple threaded attachments

Excellent anti-static properties of orange pad

Reproduction of static charges cause of material specifications

Repeatable quality and hardness due to computerised dosage unit

High dimensional stability due to first grade base plate

All pads are manufactured as required as well as segment rollers and pad segments

Ce qu'il faut savoir:

1. Forme et taille du tampon

Chaque groupe de tampon de ce catalogue correspond à un type de forme, que vous pouvez commander (p.ex. 1 pour tampons ronds, 3 pour tampons carrés). Les tailles les plus courantes y sont représentées. Nous vous recommandons donc de rechercher tout simplement le tampon dont vous avez besoin et de noter son numéro. Vérifier, SVP, toujours la hauteur du tampon (en fonction de la machine utilisée).

2. Dureté du tampon

Elle doit correspondre à l'objet à imprimer et elle est évaluée selon la Norme Shore A. Nous proposons toutes les duretés à partir de 0 Shore jusqu' à 24 Shore. Les tampons segment et cylindriques sont disponibles entre 30 et 50 Shore. D'autres degrés de dureté peuvent être fournis à la demande.

3. Type de silicone

MORLOCK propose deux qualités, définies comme suit :

0 = tampon de couleur rouge

pour le marquage en cadence rapide et la décoration en multi couleurs, bonne résistance mécanique avec tout type de produit

2 = tampon de couleur saphir

Les caractères spéciales de cette gamme de tampons sont les attributs excellentes antistatic: pas de chargement de matériels à imprimer, le tampon n'attire plus de saleté et des éclaboussures d'encre ne sont plus possible.

4. Fabrication spéciale

Sous cette rubrique, les supports spéciaux, sur les quels les tampons sont montés, peuvent être commandés. En général, les tampons sont montés sur des supports en bois. Sur demande, ils peuvent être montés sur des supports en aluminium ou métal.

La gamme de tampons MORLOCK est continuellement adaptée et élargie pour répondre aux nouvelles demandes techniques. Si vous avez besoin d'un tampon qui ne se trouve pas dans ce catalogue, nous vous le livrerons sur demande.

Les Avantages des Tampons MORLOCK:

- Seul le silicone de meilleure qualité est utilisé
- Toutes duretés Shore disponibles: 0, 2, 4, ... 24 (0 = tampon rouge)
0, 2, 4, ... 24 (2 = tampon saphir)
- Afin d'obtenir les meilleurs résultats d'impression, la dureté a été graduée en double degrés
- Les tampons standard sont disponibles à court terme
- Les tampons peuvent être échangés rapidement dû à simple attaches filetées
- Attributs excellentes antistatiques du tampon orange
- La spécificité du silicone employé garantit une réduction importante des charges électrostatiques
- Qualité et dureté reproductible dû à un dosage commandé par ordinateur
- Bonne stabilité dimensionnelle dû à des socles de première qualité
- Tous les tampons sont produits sur commande aussi bien que des cylindres à segment et des tampons à segment

TAMPONBEHANDLUNG UND -PFLEGE.

Wichtige Hinweise zur Tamponbehandlung und -Pflege.

MORLOCK Drucktampons werden aus hochwertigen Rohstoffen hergestellt und garantieren somit beste Qualität und Zuverlässigkeit.

Die Vorzüge der MORLOCK Drucktampons von denen Sie profitieren:

- Lange Lebensdauer, auch im Dauereinsatz
- Höchste mechanische Festigkeit
- Höchste Flexibilität
- Resistenz gegenüber aggressiven Farben
- Exakte Shorehärte durch computergesteuerte Dosieranlagen
- Hervorragende antistatische Eigenschaften bei Tampon Orange

Zur Erzielung bester Druckergebnisse und zur Schonung Ihrer Tampons sollten Sie ein paar Regeln zur Pflege beachten:

1. Tampons immer gereinigt und so staubfrei wie möglich auf ihren Sockeln stehend lagern. Bei längeren Lagerzeiten empfiehlt es sich zudem, den Tampon mit MORLOCK Tampon-Pflegeöl einzureiben.
2. Vor dem ersten Druckeinsatz eines neuen Tampons empfiehlt es sich, diesen einige Male
3. auf Papier abzudrucken. Dadurch wird der Tampon „aktiviert.“ Sollte er trotz dieser Maßnahme nicht genügend Farbe vom Klischee aufnehmen, reiben Sie den Tampon vorsichtig mit einem Reinigungstuch ab, das Sie zuvor mit der Farbverdünnung getränkt haben. Anschließend drucken Sie nochmals auf Papier. Ansonsten sollten Tampons nicht mit Lösungsmitteln abgewischt oder abgerieben werden, da dies die Lebensdauer beeinträchtigen kann.
4. Reiben Sie nie einen trockenen Tampon und reiben Sie nie mit den Fingern oder Handfläche. Durch den sogenannten Radiergummi-Effekt können irreparable Beschädigungen entstehen. Verschmutzungen des Tampons lassen sich am besten mit Reinigungsband entfernen. Die meisten MORLOCK Tampondruckmaschinen werden zudem mit einer automatischen Tamponreinigung angeboten.
5. Bei längeren Dauereinsätzen empfiehlt es sich, mit Austauschampons zu arbeiten. Bei extremer Dauerbelastung treten u. U. plastische Verformungen des Tampons auf, die jedoch keine Schädigung bedeutet. Diese Verformungen sind reversible und bilden sich in der Regel im Ruhezustand innerhalb von 24 Stunden zurück. Lagern Sie dazu den Tampon wie unter Punkt 1 beschrieben.

Über Hilfsmittel zur Tamponpflege sowie nützliches Zubehör rund um den Tampondruck können Sie sich in unserem Zubehör-Katalog oder über unsere Mitarbeiter informieren. Unsere Anwendungstechniker beraten Sie auch gerne in allen Fragen über Maschinen, Automationen und Sonderanfertigungen sowie über Klischees und Farben.

PAD MAINTENANCE.

Important advice concerning pad maintenance.

As MORLOCK pads are made of high-grade raw materials, quality and reliability are guaranteed.

The advantages of MORLOCK pads are as follow:

- long service life even in continuous operation
- high mechanical strength
- high flexibility
- resistant to aggressive inks
- exactly graduated shore-hardness can be given with
- our new computer piloted design systems

In order to obtain best printing results and to maintain properly your pads, the following rules should be observed:

1. When not in use, pads must be clean and as free of dust as possible and stored on their base. When storing pads for longer periods it is recommended to rub the pads with MORLOCK protective oil.
2. Before using a pad for the first time on a product it is recommended to print a few times on paper. This "activates" the pad. Should the pad still not absorb enough ink from the cliché, rub it carefully with a cleaning cloth that has been soaked in thinner. Once again print on paper. As part from that instance, pads should be not wiped or rubbed with solvents as this may affect the life span of the material.
3. Never rub a dry pad and never use your fingers or the palm of your hand. The so-called "eraser-effect" may cause irreparable damages on your pad. Use normal adhesive tape to remove any soiling on the pad. Furthermore, most MORLOCK pad printing machines are equipped with an automatic pad cleaning device.
4. During lengthy periods of operation, it is advisable to exchange pads regularly. Under extreme stress it is possible that plastic deformation occurs. This however does not affect the pad. These deformations are reversible and will recede within 24 hours of rest. Store the pad as described in point 1.

Our accessories brochure or our Service Department will advise you with regard to maintenance accessories and useful pad printing equipment. Our Service Department will also answer all your questions concerning machines, automations and custom-made installations as well as clichés and inks.

UTILISATION ET ENTRETIEN DES TAMPONS.

Recommandations importantes pour l'utilisation et l'entretien des tampons.

Les tampons de tampographie MORLOCK sont fabriqués avec des composants de première valeur, et vous garantissent ainsi la meilleure qualité et longévité.

Les avantages techniques des tampons MORLOCK sont notamment:

- Grande longévité, également en phase de mise en oeuvre
- Résistance mécanique élevée
- Souplesse élevée
- Grande résistance aux encres agressives
- La formulation du dosage contrôlée par ordinateur assure
- Une dureté Shore exacte de nos tampons

Pour l'obtention des meilleurs résultats, et pour la longévité des vos tampons, vous devez suivre autant que possible, les règles d'utilisation suivantes:

1. Stockage des tampons nettoyés et sans poussière, toujours posés sur leur socle. En cas de stockage prolongé, nous vous recommandons de les protéger avec l'huile spéciale de protection des tampons MORLOCK.
2. A l'occasion de la première utilisation d'un tampon neuf, nous vous recommandons d'imprimer plusieurs fois sur une feuille de papier. Le tampon sera ainsi « activé ». Pour cette opération, le tampon ne devra pas prélever d'encre sur le cliché, il doit être frictionné avec précaution avec un chiffon de nettoyage, qui a été préalablement imbibé avec le diluant de l'encre utilisée. Ensuite, imprimer encore une fois sur la feuille de papier. Par la suite, les tampons ne doivent pas être nettoyés ou frottés avec des solvants, qui pourraient porter atteinte à la durée de vie de silicone.
3. Ne frotter jamais un tampon sec, avec les doigts ou avec la paume de la main. Par l'effet de gommage connu, des dommages irréparables pourraient ainsi être occasionnés au tampon. Nous vous recommandons d'utiliser une bande adhésive pour le nettoyage de tampon sales. Toutes les machines MORLOCK peuvent être équipées, en option, d'un système de nettoyage automatique des tampons.
4. Pour des utilisations prolongées et intensives de tampons, nous vous recommandons d'utiliser plusieurs jeux de tampons. Avec des utilisations extrêmement longues, des déformations plastiques des tampons peuvent se produire, qui ne signifient pas pour autant une lésion rédhibitoire. Ces déformations sont réversibles, et les tampons peuvent retrouver leur forme d'origine après 24 heures de repos. Ils devront alors être stockés selon les instructions données dans le § 1.

Vous pourrez trouver les informations complémentaires sur les soins à apporter aux tampons, aussi bien qu'aux accessoires utiles à la tampographie dans notre catalogue d'accessoires, ou auprès de notre Service Client. Nous sommes également prêts à vous fournir toute information complémentaire concernant aussi bien nos machines de tampographie, que leur intégration dans des lignes de fabrication, pour des applications spéciales, et également sur les clichés et encres de tampographie.
